Good morning, ma'am,

The N'TECH of the cyber threat operational section can no longer be designated as an expert in an ECA. Unfortunately, I can only indicate, if you wish, the coordinated by a computer expert who often works with the ICC in Noumea.

As for the letter of request for the delivery of the seals, there must be a mistake in the addressee because it is addressed **to** the colonel, commander of the Wallis and Futuna Islands gendarmerie.

Sincerely
