Subject: RE: URGENT IT EXPERTISE

Good morning, Judge, Chief Warrant Officer.

I'm sending you the report of the expert.
On the iPad, there is no trace of the elements being requested.
On the computer, there are traces of internet connections, website consultations and conversations on Skype.

This conceals the access to the Garmin site on December 2. There are indeed traces of consultations on December 2, computer time.

This last one having a difference of 1 hour compared to Noumea and 12 hours compared to Wallis. The access to the site was done on December 3rd in the morning.

As I was unable to open your document for the swearing in, I used the model of the court of first instance of Noumea as well as the model of attestation of service done.

To whom should I hand over the seals, the report and the USB sticks containing the data extractions? I

wish you a happy new year, gentlemen.
Sincerely,

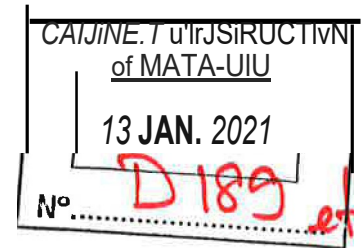

Jean-fran;ois QUINQUIS
