Sir,

Following *your* email acknowledging receipt of my order to commission an expert for DNA analysis and the exchange you had *with* the investigator, Chief Warrant Officer MULLER of the Wallis and Futuna research brigade, please find attached the accepted estimate as well as the authorisation of destruction of sce lles.

With regard to the excluded use by the two missing persons of each of the toothbrushes **to be** analysed, this one is based solely on the statements of the captain of the sailboat on which they were both on at the time of their disappearance . In addition, as we are not able to provide you with any personal data, we will have to proceed with an analysis of the hair elements to determine their colour. the hair elements by determining their colour, knowing that we are certain that the hair will not disappear.

that Calvin Isaac FERRIS -DANIAN has light blond or brown hair while Abdul Rashed Shukree's hair is brown.

As Chief Warrant Officer MULLER told you, we are currently in a sanitary confinement, and The seals will be sent to you as soon as possible.

Good morning judge,

You are right to refer to me via OCE (instruction no. 120/00008) for the analysis of various objects. On reading this half-yearly report I wonder about several points:

- Can you confirm that the analysis is only for two individuals?
  - ABDUL RASHED SHUKREE HASSAN DAWOUD
  - CALVIN ISAAC-FERRIS DANIAN
- Are you sure that the objects presented are of exclusive use to the missing persons?

Judge,

Here is the answer of the IRCGN conceiving the missing file seals.

The search for relatives may be complicated, especially if the families are still not notified of the disappearance.

I think we can try to analyse the toothbrushes together with **the** hair elements. If we are lucky enough to have DNA extracted from the blond hair, for example, we will know that it must be CALVIN ISAAC.

Sincerely.

Hello,

We have received an ECA from Mr ANGIBAUD for this file. I have sent him an estimate which he must sign and return to me with a series of questions in order to evaluate the relevance of the levies. To **answer** your questions:

**01) the investigating judge wishes to know whether you are able to determine, through the DNA profile found on each of the toothbrushes, the type of individual corresponding to this AON. In other words, is it possible to determine with certainty that the DNA found on the toothbrushes Toothbrush 28/TIC corresponds to an individual of African type and therefore to ABDUL RASHED SHUKREE HASSAN DAWOUD?**

**If it were possible, would you be able to send us the wording of this mission, so that the issuing judge could modify the order for the expert's commission accordingly?**

It is ABSOLUTELY NECESSARY that the applicant (OP,J or magistrate) ensures the CERTIFICATE OF THE EXCLUSIVE USE OF THE REFERENCE OBJECTS USED FOR THE MISSING PERSONS. A défaut il convient d'utiliser des prélèvements de parentèle (ascendants ou descendants directs)

02) You have received the order of commission of expert which was addressed to you by the judge Andre ANGIBAUD under reference CR JI 120/00008 (genetic expertise IRCGN - Quote n°1859\_EX\_BIO\_139\_21\_EX). Do I have to make a FNAEG request mentioning the concerned seals? Yes, a FNAEG request for each missing person is necessary. Hello,

I am asking you to help me identify a missing person

- Crime: Disturbing disappearance of two US nationals in WALLIS lagoon on 28/11/2020

- Background and context :

On 28/11/2020, an American sailboat enters the WALLIS lagoon with three American nationals on board. Once in the lagoon and while the boat is heading towards the anchorage designated by the authorities, two individuals jump into the water, without any special equipment or necessities.

The place where these individuals threw themselves, according to the only testimony of the skipper of the sailboat, is subject to very strong currents which were entering at the time of the facts since we were in rising tide.

The two missing individuals are believed to be conspiracy theorists, who saw the COVID epidemic as a plot to enslave people through the injection of nanoparticles in the vaccine. They categorically refused to undergo the covid test and the vaccine conceiving this pathology. This would be the reason why they threw themselves into the water, undoubtedly hoping to take refuge on one of the uninhabited islets dotting the Wallisian lagoon.

The findings as well as the PTS carried out by a TIC of NOUMEA did not make it possible to detect any trace of blood or other element which would make it possible to accredit the criminal theory.

During these observations we seized all the clothes and objects belonging to the two missing persons, according to the description given to us by the skipper of the yacht.

Finally, since 28/11/2020, no sign of life has been found for the two missing persons. The seals

to be sent to you are !es following:

Detail of the OU of the seals :

(To be repeated for each seal)

- Seal No. :22/TIC

- Additional information: QUESTIONS:

01) ): CALVIN ISAAC is Caucasian while ABDUL RASHED is African.

QUESTION: the judge of instruction wishes to know if you are able to determine through the profile AON retrm'e on each of the **toothbrushes**, the typology of the individual corresponding to this DNA. En d'autres termes vous est il possible de pouvoir definir avec certitude que l'ADN retrouve on the toothbrush 28/TIC corresponds bien a un individu of African type and donc forcement a ABDUL RASHED SHUKREE HASSAN DAWOUD?

If it is possible, you can send us the title of this mission, cc in order that the mandating judge may modify the order of the Commission of Expedition accordingly!

02) You have received the order for the commission of an expert sent to you by Judge Andre ANGIBAUD under reference CR JI 120/00008 (genetic expertise IRCGN - Quote n°1859\_EX\_BIO\_139\_21\_EX). Do I have to make a FNAEG request mentioning the concerned seals?

You have kindly contacted me via OCE (instruction no. 120/00008) to analyse various objects. On reading the latter, I wonder about several points:

Moreover I specify that hair elements are in most cases devoid of genomic DNA in case of natural fall (when they are not pulled out). The analysis will be done on the toothbrushes in first intention.

So that I can start my analysis, could you send me back the alteration authorization of the complete and signed seals?

Good morning, Judge,

You have kindly referred to me via OCE (instruction no. 120/00008) for the analysis of various objects. On reading the latter, I wonder about several points:

- Can you confirm that the analysis is only on two individuals?
  - ABDUL RASHED SHUKREE HASSAN DAWOUD
  - CALVIN ISAAC-FERRIS DANIAN
- Are you certain that the objects presented are for the exclusive use of the missing persons?

In addition, I would like to point out that the hair elements are in most cases devoid of genomic DNA in the case of natural shedding (when they are not pulled out). Therefore, the first line of action for analysis will be the toothbrushes.

In order for me to start my analysis, could you please send me back the quotation and the authorization for the distribution of complete and signed seals?

Sincerely

**CNE ,Jean-Yves CURCI**
